

## Pathways to Higher Education

***Creating pathways between high schools and colleges is essential to fulfill the Colorado Promise of doubling the number of post-secondary degrees earned by Coloradoans and reducing the number of students who drop out of high school in the state.***

***Students who complete 1 or more summer camps and 1 or more high school concurrent courses may be eligible for a \$2,000.00 scholarship each year for the first 2 years of college at CMU, WCCC, CMC, and CNCC!***

### Summer Camps

Colorado Mesa University and Western Colorado Community College support the growth and development of the youth in Western Colorado through offering many experiential hands-on learning experiences during the summer break for middle and high school students.

### High School Concurrent

Concurrent enrollment (dual credit – high school & college) is available for all qualified high school students. Qualified home school students and those enrolled in virtual/online school are also eligible to participate. Program options for dual credit include:

- Early Scholars – Attending college classes on a CMU campus
- High School Scholars – Attending college classes on a high school campus
- Technical Scholars – Attending college classes on WCCC's campus or approved partner school
- ASCENT – Attending college classes on a CMU campus; "Fifth Year" high school program with full-time enrollment on university or college campus

Students should check with their high school counselors to find out more about the concurrent enrollment options in their home high schools.

### College Scholarships

Qualified students may be eligible for a \$2,000.00 Reach Your Peak scholarship each year for the first two years of college at Colorado Mesa University, Western Colorado Community College, Colorado Mountain College, and Colorado Northwestern Community College.
